1. Applicant's election without traverse of group II in the reply filed on 11 August 06 is acknowledged.

As per paragraph 2 of the paper mailed 10 July 06, some groups will now be rejoined since claim 1 was found to be allowable. However, group IV (claims 6,9) cannot be rejoined because it recites a species that is incompatible with the parent claim 1. More specifically, parent claim 1 recites vertical partitions. Dependent claim 6 recited that the vertical partitions are horizontal wires. Of course, a horizontal wire cannot be considered to be a *vertical* partition.

Groups II,III,V and VI are hereby rejoined.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 6,9 and 13-15 have been cancelled as being drawn to non-elected groups.

On line 2 of claim 5, "said assembly" has been changed to--said separating assembly-- in order to provide proper antecedent basis.

3. The following is an examiner's statement of reasons for allowance:

The closest prior art is to Guzowski, who shows an apparatus for splitting vial packs, but does not show the individual chutes and gates that follow. The patent to White shows individual chutes and a gate, but no individual gates. The patents to Lamb, Andrews and Weiler show rams splitting objects but do not make the claimed invention obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
